

Dicyandiamide Electronic Grade

CAS NO. 461-58-5

DESCRIPTION

White Crystal.

HEALTH & SAFETY PRECAUTIONS

Dicyandiamide is not flammable, corrosive or explosive. Dicyandiamide should be kept dry and away from steam pipes or excessively hot areas. Removal with soap and water is sufficient.

APPLICATIONS

As curing agent for epoxy adhesive in CEM-1, CEM-3, FR-4 CCL production.
For Active Pharmaceutical Ingredients (API)

TYPICAL PROPERTIES

Specification	Superfine Grade
Purity (%)	99.8 Min.
Moisture (%)	0.20 Max.
Ash content (%)	0.02 Max.
Calcium content (PPM)	25 Max.
Iron content (PPM)	2 Max.
Turbidity (NTU)	4.5 Max.
Melting point (°C)	209-212
